

# DRR Price List

**Package Prices Includes:** Studio Time, Mastering, Duplication, Editing, and Design. There are no hidden charges or fee's. We do not charge an hourly rate up to 12hr, so there is no stress of a clock running or a question on what this is going to cost! Here at DRR we stride to help those who thought that recording a cd was out of reach. Our simple packages can be modified if needed to fit anyone's need and price range. The Packages listed consist of a full size cd case, with a full color front and a full color insert. This can be anything from a photo custom done by us to a photo or graphic you may want to use. The tray insert is also full color, with the Cd either silver or white with black print. These are Ink printed CD's. These are not cheap labels, they are printed directly on the CD itself. Finally all CD's are sealed in shrink wrap for protection and security. All Packages are Limited up to 12 Hours Recording Studio Time. There are many other options you can select from, these are the standard packages in which we can change to suit your needs. Please feel free to ask any questions in regards to packages and prices. We will make every effort to see that your production is done right, the way you want it to sound and look, this is my promise! *Daniel Larkins*
